PROFESSIONAL SUMMARY

Frontend developer specializing in React, JavaScript, and modern web technologies, with experience building responsive web applications and AI-powered projects. Developed full-stack applications using Node.js, Express, MongoDB, and REST APIs while exploring Retrieval-Augmented Generation (RAG), workflow automation, and modern AI tools. Passionate about creating practical software, continuously improving engineering skills, and building technology that solves real-world problems.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, C

Frontend: HTML5, CSS3, React, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL, PostgreSQL

AI & Automation: Retrieval-Augmented Generation (RAG), AI API integration, Prompt Engineering, n8n

Tools: Git, GitHub, VS Code, Postman, Vercel, Netlify, npm

PROJECTS

1. AI RAG Chatbot:

- Built an AI chatbot that answers questions from uploaded documents using Retrieval-Augmented Generation (RAG) and semantic search.

Technologies: Node.js • Express • Supabase • Gemini API • RAG

EDUCATION

Intermediate in Computer Science (ICS) | 2024-2026 --- Government Graduate College, Chowk Azam (Layyah)

EXPERIENCE

Independent Developer (2025 – Present)

- Built and deployed personal full-stack web applications.
- Developed AI-powered applications using RAG and modern APIs.
- Managed projects with Git while continuously improving software engineering practices.

CERTIFICATIONS

- Google AI Essentials — Coursera
- JavaScript (Basic) — HackerRank
